UHF-RW-MP-USB-H1

Handheld UHF G2 reader/writer

Description:

- It is well-balanced and light weight UHF handheld reader;

- Combined simple operation system, with data collecting and storing features;

- Industrial Protection Grade IP65;

- Maximum reading distance up to 0.5m;

- Special design is applied in industry market and hazardous environments.

Specification :

Model No.	**UHF-RW-MP-USB-H1**
Standard Compliance	ISO18000-6B, ISO18000-6C（EPC GEN2）
Frequency	Standard ISM 902～928MHz and ISM 865～868MHz option，others on demands
Working Mode	FHSS
RF Power	10~27dBm, software programmable
Reading Speed	Software programmable, single card average reading 64bits＜10ms
Operating System	Simply Operating System
Application Development	Provide secondary development API
Display	1.5 inch,128*128 Pixel，color CSTN display
LED indicator	Bi-color
Keyboard	21 keys
Data backup	FLASH（64M）
Interface communication	Standard: USB 1.1 / 2.0
Reading distance	Read >0.5m , Write >0.1m
Battery	600mAh Lithium battery, continuous working hour>5 hours, standby > 50 hours
Dimension	140*63*26mm
Temperature	Operating: 0℃～50℃ storage:-20℃～70℃
Weight	200g
